Hello Heidi:

We will consider doing the sampling that you suggested. We may actually consider applying some topsoil and grass to the play area.

Thanks  
Gary Moore

Hi Gary,

I made it back to Austin. Thanks for taking the time to show me the site and describing the cleanup activities. Although we didn't get much business at the community meeting, I think it was useful trip for DSHS.

Also, I hope you will consider my request to collect a few soil samples from the daycare's play area following cleanup activities. These samples will provide assurance that none of the cleanup activities, however unlikely, have cause contamination to migrate into the play area.

Several of our staff members will be at Lane Plating next week. I have advised them to visit the Doyle site while they are in the neighborhood.

Thanks,  
Heidi

**Subject:** Re: EPA Public Info. Meeting

We can make Nov. 5 work if that fits your schedule better. We do have events planned for the rest of that week so our facilities would not be available on the other evenings to host this session. We can schedule the come-and-go-session from 4:00p.m.-6:30p.m. in the Leonard High School Cafeteria on that date. Do you all anticipate starting the clean-up process on this date or will you just be setting up? This will help in case we are asked from our parents since we do have students walking by that area on a daily basis. We will re-route them once we know your schedule.

Thanks,

Brad

**Subject:** Re: EPA Public Info. Meeting

We will be glad to schedule a come-and-go-session for this. About how much time would you like to allot? I noticed Paige could not make it on Nov. 1, so from your side do we need to find another date the next week? We are thinking a time frame of 4:00p.m.- 6:30p.m. for this which will allow any district teachers time to stop by for information at the conclusion of their school day at 4:00p.m., and it allows parents working out of town time to stop by until about 6:30p.m. I am available by phone if this would be easier to discuss (903-587-2318).

Thanks,

Brad

Hey guys,

Unfortunately, I can't be there on 11/1 as I'm travelling out of town that day. I know we're mobilizing to the site the following week (5/5) but we will be onsite that entire week, I don't know if that's an option for scheduling.

Also, if we could – an open house type forum where people can come and go and ask questions is usually pretty successful for these types of meetings. Just a thought.

Please let us know what works best for you! Thank you

Mr. Maxwell;

We can do either. Whatever you think is more appropriate for you community we can do. As you mentioned, our preference is come and go. Thursday, Nov 1 is a good day.

Thanks  
Gary Moore

Hi, Gary and Paige -

I am trying to line up a date for the public information meeting we had talked about in case parents of district-wide students would like to attend. At one time you had mentioned possibly just doing a come-and-go-session where someone from the EPA would be present perhaps during one afternoon/early evening for interested individuals to meet with you all and get the basic information about the cleanup process or we could have one informational session for everyone in the early evening. Which way do you prefer? We are looking at Thursday, Nov. 1 for this if it works in your schedule. If not then we can try for the following week. Any

thoughts?

Thanks,
